

HOMEMADE PLAYDOUGH

2 cups plain/all-purpose flour
1 cup salt
2 tablespoons cooking oil
2 teaspoons cream of tartar
2 cups of water

Put all dry ingredients in a saucepan. Add water, oil and color. Cook slowly and stir all the time. As it gets hot it will begin to thicken up. Knead on a floured surface. You can also divide up into Ziploc bags and add food coloring. Then squish the bag until the color is mixed in.

Alternatively, microwave on high for up to 6 minutes. Remove frequently and stir. Knead on a floured surface.

This keeps a long time if refrigerated and isn't crumbly.
